EDU FEST

WA 2026

PERTH

17th September 2026 | Perth, Western Australia

EduFest WA Perth returns in 2026 with a hands-on professional learning experience for educators who want to create learning experiences that better engage today's students while preparing young people with the capabilities and confidence they need to thrive in a rapidly changing world.

Designed for classroom teachers, school leaders and education professionals, the day explores what's next in education and, more importantly, how to transform fresh ideas into impactful learning experiences and school initiatives. Attendees will walk away with a clear action plan they can take back and implement, alongside strategies, resources and networks that will help them create impact long after the event.

Over the course of the day attendees will hear from inspiring keynote speakers and interactive panel discussions while also participating in hands-on masterclasses and a collaborative design sprint. Key themes for the 2026 program include how to create engaging learning experiences, leverage emerging technologies, strengthen industry partnerships and build future-focused school communities where every student has the opportunity to succeed.

Masterclasses featured in this year's program include:

**Digital Tools To Work
Smarter, Not Harder**

**Strategies For Building
Industry Partnerships**

**Build Your Network
As An Educator**
