EDU FEST

WA 2026

BUNBURY

21st September 2026 | Bunbury, Western Australia

EduFest WA returns to Bunbury in 2026 with a hands-on professional learning experience for educators who want to harness the opportunities of emerging technologies while continuing to develop the human capabilities students need to thrive in a rapidly changing world.

Designed for classroom teachers, school leaders and education professionals, the day explores how schools can strike the balance between digital and human learning. Attendees will discover practical ways to leverage technology, strengthen curiosity, creativity and wellbeing, and design engaging learning experiences that prepare students for the changing opportunities and challenges shaping regional communities.

Over the course of the day, attendees will hear from an inspiring keynote speaker and interactive panel discussion while also participating in hands-on masterclasses and a collaborative design sprint. Together, they'll explore how digital tools can enhance learning without losing the human connection, build future-focused capabilities that prepare students for changing industries and emerging careers, and develop practical ideas they can take back and implement within their own school community.

Masterclasses featured in this year's program include:

Digital Tools That Enhance Learning

Designing Learning Students Want To Return To

Building Human Skills In A Changing World
